# FOR WHO ?

"Me, myself and I"

# FOR WHAT ?

To be informed of deadlines, epitech's delivery, horoscopes, moon phases and other features will come later (Podcasts/albums releases, concerts...)

# HOW ?

Vue.js, is an open-source JavaScript framework used to build user interfaces and single-page web applications. VueJS aims to facilitate the creation of dynamic web applications through the creation of components. Like Angular and ReactJS, VueJS integrates seamlessly and easily with other technologies, CMS and frameworks.

# WHAT'S IN IT FOR ME ?

## WIIFM

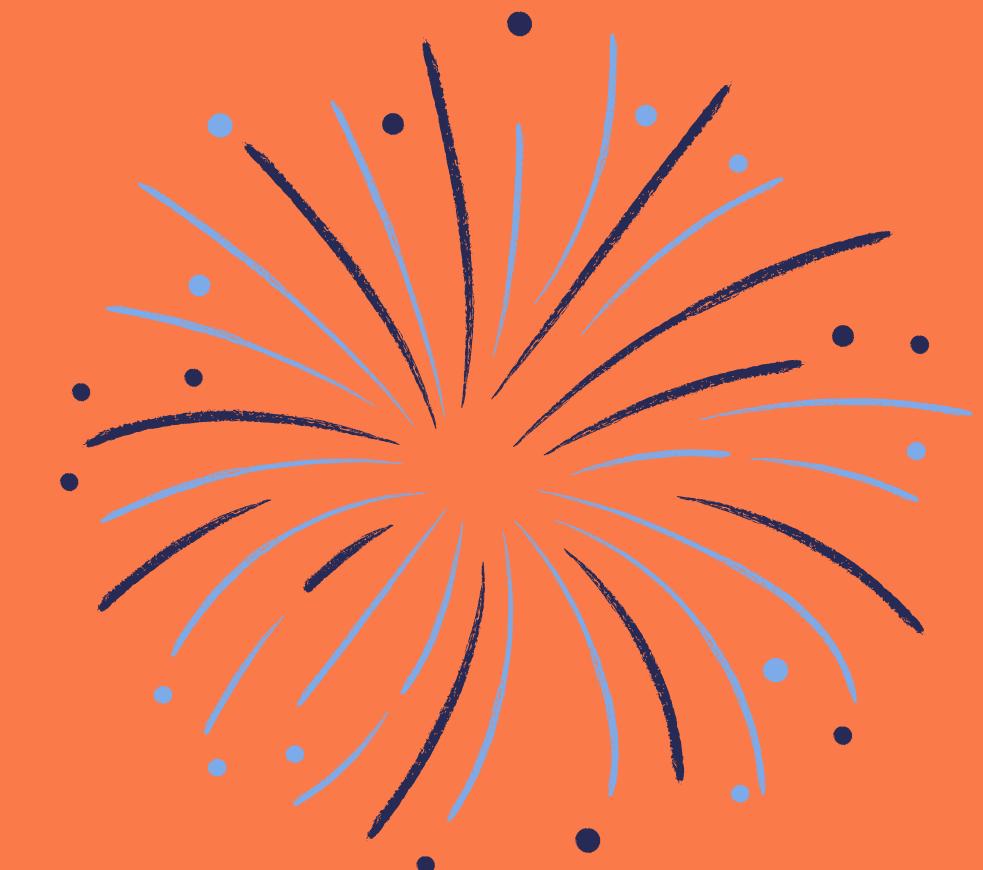

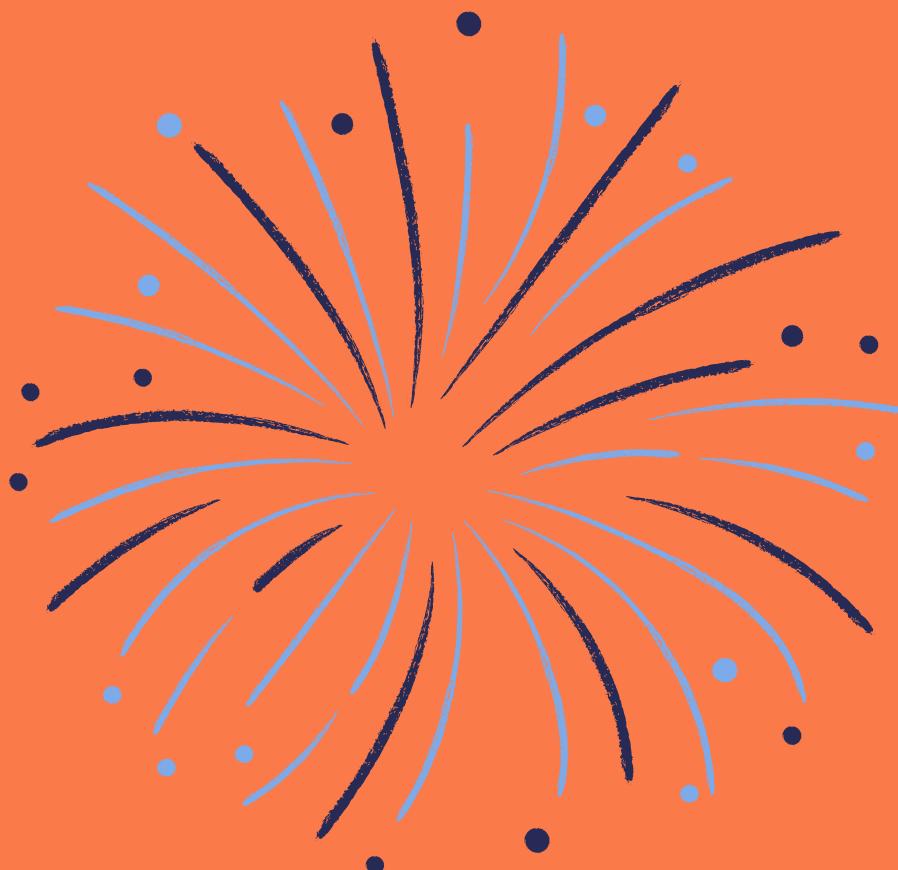

A simple tool, adapted to my dyslexia but also to people from Dalton. With the lunar calendar I will be able to know when to have my hair cut or to plant my salads. Having the epitech renderings included in it allows me to adapt my workload as for my personal meetings. Adding events allows me to plan my vacation more easily.
